PROJECTS

1. Autism Detection System
Jan - Jun 2025

- Developed a web-based system to assist in early detection of autism using questionnaire-based screening.
- Built using ASP.NET, C#, and SQL Server for backend and data management.

2. PC Customization Website
Aug - Nov 2024

- Built a customizable PC configuration platform using Python (Django)
- Enabled users to select components (CPU, GPU, RAM, etc.) and view dynamic pricing

LANGUAGES

- English (Fluent)
- Malayalam(Fluent)

CERTIFICATIONS

Business Intelligence (BI) Essentials
-IBM via Coursera

Completed: June 2025
Verified Certificate:
coursera.org/verify/X6K5GYK6NU2D

PROFESSIONAL SUMMARY

"Passionate .NET Developer with hands-on experience in C#, ASP.NET, and SQL, specializing in web application development. Strong expertise in object-oriented programming (OOP) and database design, with a proven ability to build scalable solutions. Committed to writing clean, efficient code and leveraging the latest technologies to solve complex problems. Adept at debugging, testing, and optimizing applications for performance and usability."

INTERNSHIP EXPERIENCE

DC infotec,thriprayar

- Developed web apps using ASP.NET MVC/Core, C#, and Razor Pages, enhancing user engagement.
- Built responsive UIs with HTML5, CSS3, Bootstrap, and JavaScript for seamless cross-browser performance.
- Optimized databases via Entity Framework, SQL Server, and stored procedures, improving query efficiency.
- Streamlined backend operations using LINQ and ADO.NET for robust application logic.

EDUCATION

Master of Computer Aplications , Sep 2023 - Aug 2025
University of Calicut

Bachelor of Science in Physics, Aug 2019 - Jun 2022
University of Calicut

SKILLS

- Familiar with front-end technologies: HTML5, CSS3, JavaScript, Bootstrap
- Proficient in C#, ASP.NET, and Object-Oriented Programming (OOP)
- Solid experience with SQL Server and relational database design
- Knowledge of .NET Framework for developing scalable web applications
- Strong analytical and problem-solving abilities
- Fast learner with a passion for continuous improvement
- Adaptable to new technologies and development tools
